

## Case Studies

ENTRANCES conducted 13 regional case studies in Europe, focusing on coal mining and carbon-intensive regions. These case studies aimed to analyze the social sciences and humanities (SSH) dimensions in order to identify the challenges posed by the Energy Transition.

### Coal mining regions

Silesia, Poland  
Lusatia, Germany  
Rhineland, Germany  
Central Germany, Germany  
Jiu Valley, Romania  
Sulcis Iglesiente, Italy  
Upper Nitra, Slovakia

### Carbon-intensive regions

Brindisi, Italy  
Kraków Metropolitan Area, Poland  
As Pontes, A Coruña, Spain  
Upper Styria, Austria  
Stavanger, Norway  
South Wales, United Kingdom

## About

ENTRANCES was launched in May 2020 with the aim to develop a theoretically-based and empirically-grounded understanding of cross-cutting issues related to SSH aspects (socio-economic; socio-technical; socio-ecological; socio-cultural; socio-political and socio-psychological; and gender related) of “Clean Energy Transition” in European coal mining and carbon-intensive regions, so as to formulate a set of recommendations in order to tackle these issues.

The project has addressed challenges in these regions by considering various perspectives from key stakeholders at territorial, regional, national, European, and global levels. It is led by the University of A Coruña, Spain, and involves a consortium of 14 organizations.

## Key Project Figures

“*Let’s envision a world beyond coal and carbon.*”

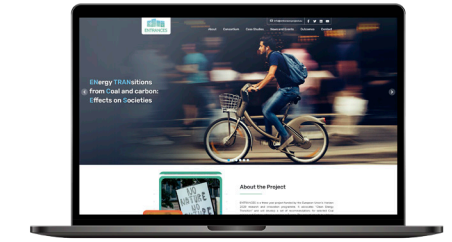

## Specific Objectives of ENTRANCES

-  The development of comprehensive knowledge and insights on the SSH aspects of transitioning to clean energy
-  The development of a better understanding of the challenges faced by the selected European coal mining and carbon-intensive regions
-  The co-creation of a set of recommendations from the project findings using multi-level perspectives
-  The contribution towards a common vision by taking into account societal implications and opportunities of “Clean Energy Transition”

## Work Plan

-  **WP1** Conceptual framework
-  **WP3** Coal mining regions case studies
-  **WP5** Comparative analysis
-  **WP7** Communication and Dissemination
-  **WP9** Ethics requirements
-  **WP2** Methodological framework
-  **WP4** Carbon-intensive regions case studies
-  **WP6** Knowledge co-production and recommendation
-  **WP8** Management
